

MUSASHI

武蔵

The black Groove Wedge is specially designed for use with the 12" Musashi Snare Drum.

The 12" snare drum uses a unique snare design where the 16 snare strands are separated into two groups with a gap between the two.

Release Side **B type** Butt Side **B type**

Both release side and butt side strainers are designed with two smaller feet for attachment to the drum shell. Their smaller footprint provides minimum strainer to shell contact, delivering a more natural shell sound.

NSD1365M Size : 13 "x6 1/2"

NSD1260MBGW Size : 12 "x6"

Oak Brings a Fresh Sound to These 12" & 13" Snare Drums. Professional Quality at an Attractive Price.

- The 7-ply all oak shells produce a crisp attack with a full-bodied sound that can cut through and be heard.
- See through black mirror finish delivers a stunning exterior.
- The 12" model comes equipped with a black Groove Wedge specially designed for use with the Musashi. The Wedge is great for getting that fat wood hoop sound when using a cross stick technique.
- A deeper than normal 2.7mm snare bed is less sensitive to vibration due to influence from other drums.

OAK CUSTOM

SNARE DRUMS

Blue Ridge Blue Oak

Matte Sedona Red Oak

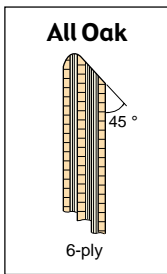

Bryce Canyon Brown Oak

Matte Ozark Black Oak

NSD085 Size : 14 "x5 1/2"

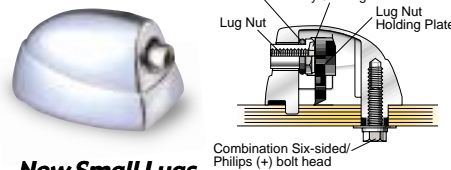

NSD087 Size : 14 "x7"

This beautifully finished snare drum utilizes a 6-ply, all oak shell to produce a tight, natural tone. Adjustable Snare Wires under the batter head can be adjusted to meet your particular taste.

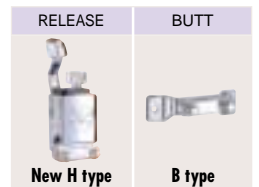

Adjustable Snare Wires

The snares under the batter head are attached to an adjustment knob to regulate snare pressure against the head. Against the bottom head is a set of hi-carbon steel snares. Both snares can be used simultaneously, separately, or switched off as you like.

New Small Lugs

These newly designed, small round shaped lugs are easily attached to the shell with a single bolt. They also provide precise and secure tuning.

Strainers Both strainers feature small footprints to provided minimum strainer to shell contact as well as easy operation.
